## ELEGANCE, BEAUTY AND SIMPLICITY

Rosana Madrid Romero dedicates this Collection to her mother Mercedes Romero and her daughter Martina Madrid. The three are represented by the Cala, a flower that means elegance, beauty and simplicity.

3 Calas Madrid Romero Blanco is the wine that represents the elegance identified in the person of Mercedes Romero, the first generation of the family. Light and elegant, it is ideal to enjoy both alone and accompanied by its freshness and aromas.

## VINEYARDS

In its 7.65 ha. of Sauvignon Blanc we find a stony and sandy land, the continuous tilling of the earth means that it does not lose its sponginess, the stones help to retain moisture at night, so that it does not suffer water stress during the day, since during the summer season, when the grapes ripen, reaches extreme temperatures of between 43 and 45°C.

## TASTING NOTE

Sunny climate with a high luminosity for the hours of sun and with constant winds that clean and dry the humidity of the night, are characteristics that we find in the wines of Madrid Romero; especially in its Sauvignon Blanc, with an intense and luminous yellow color, and a marked acidity in the mouth, with a long and persistent flavor, leaving a freshness that joins its aroma of Mediterranean citrus.
